

# BEAT THE CLOCK!

(Higher or Lower)

## MATERIALS NEEDED:

Toy Catalog

Construction Paper

Stopwatch

Cut pictures of toys from catalogs and make "Flash Cards"

Front of card: Picture of the toy

Back of Card: Price of toy

Have an adult hold the flashcard, showing the picture to the child, careful not to reveal the price. The child then tries to guess the *exact* price of the toy, in under 30 seconds. After each guess, the adult will say, "higher!" or "Lower!" to give the child clues. If the child guesses the exact price in under 30 seconds, he gets a point for his team. Once the group has gone through all the flashcards, total the points to determine which team wins!
